Mr. Alan Preston
TTM Technologies, Inc. (Forest Grove)
1521 Poplar Lane,
Forest Grove, OR 97116-2033

Dear Mr. Preston:

RE: Qualified Manufacturers List (QML) Certification, MIL-PRF-31032; CAGE Code: 01KV9;
CN086223, VQE-24-038411

An on-sight audit was performed on September 12-14, 2023, of your facilities at 1521 Poplar Lane, Forest Grove, OR to the requirements of MIL-PRF-31032C and your Technical Review Board (TRB) approved Quality Management (QM) Plan.

Compliance with these requirements has been successfully demonstrated. Therefore, TTM Technologies, Inc. (Forest Grove), is considered a certified manufacturer eligible to qualify and supply printed boards to the requirements of MIL-PRF-31032C. The effective date of this certification is January 31, 2024. This certification covers the following:

Quality Management Plan: *ML-200-00-WI TTM Mil-PRF-31032 Quality Management Plan, QS-100-00-WI Quality Systems Plan*

Process Flow Documentation Index: *QS-100-00-WI Quality Systems Plan (Appendix I)*

Process Flows: *ML-200-00-PA FG Process Flow*

This certification gives your TRB the responsibility and flexibility to approve major changes to the MIL-PRF-31032C certified process flow and QM Plan with concurrent notification to the Qualifying Activity (DLA Land and Maritime-VQ), with the following exceptions:

1. Test optimization initiatives must be coordinated with DLA Land and Maritime prior to implementation.
2. Future qualification actions initially must be coordinated with DLA Land and Maritime throughout the qualification process.

This certification can only be terminated by written notification from this Center. For the duration of the certification, the manufacturer is subject to periodic reviews by the qualifying activity or its representatives. TTM Technologies, Inc. (Forest Grove), agrees to submit status reports in accordance with its TRB approved QM Plan and MIL-PRF-31032C.

All qualification tests, lot conformance, and periodic conformance inspections must be performed at facilities that have DLA Land and Maritime-VQ Laboratory Suitability Status for each of the applicable test methods.

Note: The results of the DLA Land and Maritime-VQE quality systems sample audit held on September 12-14, 2023, were found by examining a sampling of the manufacturer's normal manufacturing, testing, and processing procedures. The acceptance of the corrective actions from the above referenced audit does not relieve the manufacturer of its contractual obligation to deliver printed boards that comply with all applicable requirements. Should you have questions, please contact Mr. Samuel Wagers at (614) 692-9567 or vqe.sw@dla.mil.

Sincerely,

KOLONCHUK.RAYMOND.LJR.1230207093
